[D] [G]

Gonna [D] find my baby, gonna hold her tight
Gonna [G] grab some afternoon [A] delight
My [D] motto's always been when it's right it's right
Why [G] wait until the middle of a [A] cold dark night

[G] When everything's a little clearer in the [A] light of day
[G] And we know the night is always gonna be here [A] anyway

[D] Thinking of you's working up my appetite
Looking [G] forward to a little after [A] noon delight
Rubbing [D] sticks and stones together makes the sparks ignite
And the [G] thought of rubbing you is getting [A] so exciting
[D] Sky [A] rockets [G] in [D] flight,
[A] after [Ebdim] noon de [Bm] light
[G] After [A] noon de [D] light, [G] after [A] noon de [D] light

[D] Started out this morning feeling so polite
I always [G] thought a fish could not be caught who [A] didn't bite
But you [D] got some bait awaitin' and I think I might
Like [G] nibbling a little after [A] noon delight
[D] Sky [A] rockets [G] in [D] flight,
[A] after [Ebdim] noon de [Bm] light
[G] After [A] noon de [D] light, [G] after [A] noon de [D] light

[G] Be waiting for me baby when I [A] come around
[G] We can make a lot of loving 'fore the [A] sun gone down

[D] Thinking of you's working up my appetite
Looking [G] forward to a little after [A] noon delight
Rubbing [D] sticks and stones together makes the sparks ignite
And the [G] thought of rubbing you is getting [A] so exciting
[D] Sky [A] rockets [G] in [D] flight,
[A] after [Ebdim] noon de [Bm] light
[G] After [A] noon de [D] light, [G] after [A] noon de [D] light
